PROFESSIONAL SUMMARY

Full-stack developer with 5 years of experience building web platforms and, more recently, AI-powered products. At Echooo.AI I build AI-driven features end to end — FastAPI on the backend, Next.js and React on the front, with LLM and third-party AI API integrations running in production. Previously built client web platforms at PlanLab Solutions and SIS portals and Learning Management Systems at the University of South Asia, where I also lectured. Comfortable across the whole stack, including what comes after launch: auth, payments, data migrations and performance work.

TECHNICAL SKILLS

Backend: Python, FastAPI, Laravel, PHP, Node.js

Frontend: Next.js, React, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS

Databases: PostgreSQL, MySQL

AI: LLM and AI API integration, OpenAI APIs, prompt engineering

CMS & Tools: WordPress, Git, GitHub

Other: REST APIs, e-commerce development, LMS / SIS portals

PROFESSIONAL EXPERIENCE

Full Stack Developer | **Echooo.AI**

May 2025 – Present | Lahore, Pakistan

- Build AI-driven features end to end: FastAPI backends, Next.js and React frontends
- Integrate LLM and third-party AI APIs into production workflows
- Optimise API performance and database queries across the platform
- Work directly with product and design to take features from spec to release

Lecturer | **University of South Asia**

February 2024 – May 2025 | Lahore, Pakistan

- Taught e-commerce web development, front-end development and programming fundamentals
- Mentored students in practical coding skills and industry best practice

Software Developer | **University of South Asia**

March 2022 – January 2024 | Lahore, Pakistan

- Built and maintained Student Information System (SIS) portals and Learning Management Systems (LMS)
- Developed e-commerce web applications and internal management systems
- Worked across React.js front ends and REST API back ends

Web Developer | **PlanLab Solutions**

November 2020 – February 2022 | Lahore, Pakistan

- Designed and developed responsive websites and web applications for a range of clients
- Built and integrated REST APIs; managed source control and releases with Git and GitHub
- Implemented performance optimisations and resolved bottlenecks in the development workflow

Web Developer (Internship) | **Punjab Board of Technical Education, Lahore**

September 2018 – March 2020 | Lahore, Pakistan

- Contributed to web development projects for government educational portals

EDUCATION & CERTIFICATIONS

Bachelor of Science, Computer Software Engineering

University of Gujrat | September 2014 – July 2018

- Final year project: GSM-based home automation system built with Python
- **Web Developer Certificate** – Punjab Information Technology Board (PITB)
